What's the nature of your project?

Film? Digital film? HD? SD?

Or a mix of them all?

Determine the workflow you need for your project(s) and then put SCRATCH to work. You'll set your project up in record time and can then start importing your images into the SCRATCH system.

Follow the Workflow

- Film to film/film to tape/film to digital cinema
- Tape to tape/tape to film/tape to digital cinema
- Digital film to digital cinema/digital film to film/digital film to tape

Whether your imaging project is film (2K, 4K) HD/SD, or digital film the SCRATCH Data-Centric Workflow Solution™ is the essential mix for an easy-to-use, streamlined, end-to-end digital pipeline. And whatever your workflow of choice, SCRATCH™ includes features that boost your speed and productivity, allow for experimentation, and help you make a profit while doing so.

The Essential Mix

SCRATCH is a single, open, real-time, resolution-independent solution with a robust feature set: Data management; review/playback, assemble/edit, conform, primary and secondary color grading, multi-layer grading stack, audio, visual effects (enhanced by third-party plug-ins), support for 1D, 3D and customer-developed Look-Up-Tables (LUTs), final mastering to any format.

What the Customers Say

Cineworks (Miami)

Vinny Hogan

Founder, President, & Co-Owner

"... we take advantage of all the SCRATCH features...it all adds up to increased productivity, time savings, and cost control. SCRATCH has given us the needed all-in-one solution so that we can provide more services to our customers..."

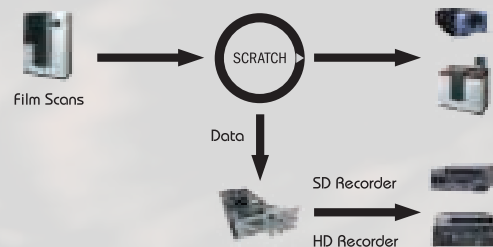

Kincine (Valencia, Spain)

Oscar Martinez

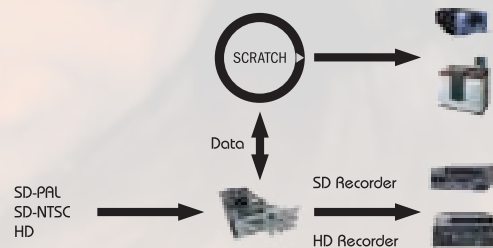

Colorist, Artist, and Owner

"...most importantly, SCRATCH has simplified the entire workflow for all our projects, allowing us to concentrate on the key details that make each film unique..."
